PERSONAL POINTS.

Collected From Hotel Corridors and Elsewhere.

Major Converse, of Houston, is again in the city.

Mr. John W. Siler, well known in this city, is dangerously ill.

R. E. Chapman, a Pleasanton stockman, is at the Southern.

Harry Russell, a stockman from the Texas, is at the Southern.

S. T. Orr, of the Mexican National, at Laredo, is at the Southern.

Major Nelson, prominently connected with the Dallas trunk railway, is in the city.

R. G. Long, a merchant of Pearsall, is at the Central. He is in the city on business.

J. H. McAllen and E. P. Stoves, stockmen of Wichita Falls, are at the Southern.

R. N. Bates, Hamilton Prother and F. C. McKinney, prominent stockmen of Colorado City, are at the Central.

Captain Shardin has returned from Mexico, bringing the former Morrison, and is now at his place in the police office.

Captain Henry Scott, of Refugio, W. A. Talbot, of Pearsall, C. W. Marshall and wife, of Houston, are at the St. Leonard.

Mr. John Fonda, a commercial tourist of St. Louis, and Charles Ott, in the Southern.

Major G. W. Baylor, has been taking in the city for the past two or three days. Whether he has been taken in or not the reporter says not.

William Rush, William Greenhouse and J. H. Hutchinson, business men of Decatur, Ga., are in the city to buy goods for the fall trade. They stop at the Central.

Brought Back.

Marshal Shardin returned last night from Mexico, bringing Morrison, the man who forged the check on the Traders' National bank, from which he drew \$2,200. Captain Shardin secured \$2,000 and a pistol, snuffbox and cartridges, worth about \$30.

Live Business Men.

Among the live business men of the Capital City (Austin) are the Morley Brothers, wholesale druggists and manufacturers of patent medicines. This firm do extensive advertising, owning their own printing office, and employ some six or eight printers regularly. The popularity of their remedies is great, and there is an increasing demand daily. These gentlemen are pleasant men to deal with, and are deserving of the success they are meeting with.

The Matinee.

Saturday's matinee of Golden Hairs and the Three Bears was exceptionally well attended and the performance was in all respects more finished than the first representation each of the juveniles appearing more at their ease than yesterday, although the evening's entertainment given so soon after the conclusion of the matinee might be thought to have put an undue strain on the members of the company. This was not perceptible, and the frequent applause bestowed how highly the efforts of the actors were appreciated by the audience.

Accidentally Shot.

This morning two Mexicans were bringing a gun into town, to pawn, and when in the vicinity of the International depot they got to scuffling over it, when one of them, Anaristo Sanchez, was shot in the right leg, just above the knee, by an accidental discharge of the gun. Dr. Cupples was summoned, and recommended an amputation of the leg, but as yet the operation has not been performed, although Dr. Cupples has informed the friends of the wounded man that unless the limb is amputated the man must surely die. He is now in a very precarious condition.

Back from the East.

United States Marshal Gosling returned Saturday from the East, and reports having had a delightful trip. He left Mrs. Gosling and the children on Nantucket island, off the coast of Massachusetts, for the summer.

In regard to the report that the Marshal had left his district without permission, he says he has no criticism to pass upon the actions of the law, and will give them the benefit of his charitable silence. Of course the charge was false, the Marshal having permission to be absent three weeks for the purpose of taking his family to the sea shore. The law knew this must be so, and declined to insist on the return of the Marshal, as also did the Express and Mr. Gosling seems very grateful for the kindness.

Returned From Waco.

Professor W. C. Rife has just returned from Waco, where he has been in charge of the summer Normal class at that place. He reports a very pleasant and successful institute, and that good work has been accomplished. There were 67 teachers in attendance, and a daily average of 40. Thirty-two applied for certificates. Of that number 20 received first-class certificates, seven second-class certificates, three failed, and two dropped out.

Professor Rife also informs the reporter that some 45 or 46 teachers will be required for our city schools, and thinks there will be some six or seven vacancies to be filled. There will be an examination of applicants for the vacant positions some time this week. All the Board is now waiting for is the return of Colonel Belknap and Major Dwyer, two of the members of the Board, who are expected to arrive to-day or to-morrow.

His Investments Imperturbed.

"Why don't you go to work?" a gentleman asked a very ragged tramp. "I am anxious and willing to work," replied the beggar, "but what's the use of it until they settle the tariff question?"

What has the tariff to do with it?

"A great deal," Suppose I want to work and accumulate a small capital by industry and economy?"

"Well?"

"What's the tariff to do with it?"

"A great deal," Suppose I want to work and accumulate a small capital by industry and economy?"

RAYS OF LIGHT.

Gathered by Reporters on Their Tours Through Town.

—Weather prophets said "we should have rain yesterday. Did we?"

—Erastus Reed has gone into the land business, inasmuch as he has bought a fine ranch near the city.

—Mr. L. Orsak, the druggist, is the proud possessor of a brand new baby boy. Or hand, friend Orsak.

—Marriage licenses issued to-day: W. Nelson to Miss Sue Williamson; Oliver Jones to Miss Anna Curry.

—There is going to be fun in the Democratic ranks this fall. The murmurs of the coming storm are heard in the country.

—The peripatetic potato peddler still perambulates the streets, and performs his wondrous. His pathetic appeals attract many a passing pedestrian.

—The amount realized by the recent entertainment given at the Springs by the Ladies Exposition Society amounted to \$130.35.

—Mr. Oliver Jones and Miss Amanda Murray, who married at the Central hotel this morning at 11 o'clock, Justice Shields performing the ceremony.

—Married yesterday, at 3 p. m., at the residence of the bride's mother, on East Commerce street, by Rev. W. S. Falkenberg, Mr. C. Boone to Miss Alice Bacon.

—Rev. S. W. Martin, D. D. of St. Louis, will preach at the Second Baptist church, corner of Commerce and Chestnut streets, to-night. The public are invited.

—The Democrats in one of the precincts of the Fourth ward tried to make Herman Schreier a delegate to the County Convention, but Herman would not have it.

—If the Water company were not so arbitrary, more citizens would take advantage of the luxury of a hose and thus make some of the by-roads a little less dusty and more grateful to the weary pedestrian.

—McKernon, the man who was recently run over by a passing switch engine on the International railway, and who had his leg amputated in consequence of the injuries received, is reported by Dr. Braunmager, City Physician, as getting along very well.

—Captain Shardin, after various delays and hindrances, will leave for Mexico in returning to San Antonio with Morrison, who is now safely in our country jail. Captain Shardin was accompanied by Captain Stephens, Boyars, Chief of Police at Laredo, and City Marshal L. Garcia, of Monterrey.

—Messrs. G. W. Rife & Co., are in receipt of a letter from a prominent and wealthy French resident of Mexico, stating that he will soon be in this city to invest largely in real estate, and that he expects to make this his home. We trust that he will soon arrive and become a citizen.

How to Handle a Gun.

Beginners in the handling of guns. The first thing to do when you go out gunning with another boy is to guard yourself against accident. The best way to do this is to shoot the other boy before he has time to load his gun. Then take both guns to the nearest creek and throw them in. Throw the powder and shot in after them. If you have any matches about your clothes throw them in also. Then start at once and go home as fast as ever you can. And if you are under 18 years young the chances are, even with these precautions, that you will get both legs and a section of your back filled to the brim with bird shot before you reach home.

—How?
Goodness only knows how, my son. I don't. I have often wondered how it did happen, but I could never ascertain. I am not here to tell you ingenuous theories, but merely to state cold facts, and I know that a boy with a single barrel gun twice as long as himself can manage somehow to shoot himself in more places at once than a man can do with a seven shooter revolver. "Am I going to buy a gun?" "Yes, I am; sometime in the long vacation when time hangs heavily on my hands, and I think I would enjoy entertaining you by picking shot out of your back with a single shot."

—But you would be very careful with it?"

So is a woman very careful with an umbrella, my son, and yet seldom liable to account for the starting line of one eyed man every summer.

—Fame.—The quarter of an hour before dinner. "Son of the house (to the hero of the day)—"Are you any relation to the Williamson?" General Sir Archibald Williamson, G. C. B., C. S. I., V. C., etc.—"The Williamson?" Son of the house—"Yes, Fred Williamson, you know, who jumped five feet seven and three-quarters at our sports this term."

—There will be a meeting at the District court room at 9 o'clock, p. m., Tuesday, August 5, of the subscribers to the stock of the proposed San Antonio and Aransas Pass railway for the purpose of organization. All subscribers are expected to come prepared to pay 50 percent on their subscriptions. This will be strictly a stockholders' meeting.

—The Committee.
Meigs Logan
Takes pleasure in informing her friends and pupils that she is now located on Aqueduct street, opposite the public High School, where she is prepared to give lessons on Piano, Violin, Guitar or organ. Charges \$4 per month, or 50 cents per lesson.

—Notice.
